Instructions regarding the PDF files on this site.

This We Believe, an In-depth Look at Bible Doctrine, by Rev. Phillip D. Mosher, has a registered copyright of 2007. In order to retain rights over the work, it was decided to self-publish. This book goes back to Rev. Mosher's original doctrinal statement of 1964 and has continued to be an on-going project as he studies, learns, teaches, and writes. This book is available in PDF format on the "Publications" page.

Usually if a chapter has been updated for typo corrections, no changes are noted; but if a chapter or chart has been revised, adding new materials, the copyright notice on the pages has been upgraded.

The links on the "Publications" page of this site are pages from the book in PDF format. The first link on "Publications" goes to these "Instructions" and gives instruction for downloading those files. The others are PDF files for sections of the book. It is important that everyone read "Background Material" and the next chapter on Hermeneutics. It is the author's belief that no topic is more important than the science of Bible interpretation. How we interpret dictates what we believe and practice.

Working on the honor system, you are free to print one copy of the Book files for personal use. A donation of \$15 to BBM-INC would be appreciated but is not required. BBM does have overhead expenses. Copies should not be made for distribution before donating \$0.05 per page to BBM-Inc. Discounts will be made upon request where more than 10 copies are desired for distribution. At no time should one make copies and earn a profit there-from. This site and these studies are being offered to help the people of God and not for personal gain. See the "Contact" page of this site for information on making donations and/or payments for materials downloaded. If you desire to produce spiral bound books, BBM can email you a PDF file for the covers.

BBM will publish and mail within the USA a spiral bound edition of *This We Believe* for \$30 each. This will be a full-color edition, and the \$30 covers our costs without profits.

The "Studies" page of this site will link one to various biblical materials in PDF format. There is no charge for these, though donations are appreciated. We do ask you to respect the copyright—no plagiarizing. Our hope is that through these works the believer is strengthened.

Usually the inside margin is wider than the others and the pages are mirrored. This is done for printing on both the front and back of the pages. Thus, the left margin

on odd pages is wide, and the margin on the right side of even pages is wide. This wider margin will facilitate for the punching of holes for use in a binder.
